PROFESSIONAL EXPERIENCE

- Doctor Genius | Irvine, CA

March 2022 — Present

Software Engineer / Web Developer

 - Built and maintained client websites on WordPress using HTML, CSS, JavaScript, PHP, and custom page templates.
 - Developed custom frontend components and layout modifications tailored to specific client requests and brand guides.
 - Managed ongoing monthly site updates and ensured consistent SEO best practices across client accounts.
 - Resolved cross-browser styling issues, optimized site load speeds, and improved Core Web Vitals scores.
- W Brand Studio | Costa Mesa, CA

January 2022 — March 2022

Freelance Web Developer

 - Built and maintained responsive client websites and landing pages using WordPress, React, PHP, and modern CSS.
 - Translated Figma design mockups into fast-loading, mobile-friendly web pages and custom WordPress themes.
 - Integrated contact forms, third-party APIs, and automation webhooks to streamline client workflows.
- Underdog Devs | Remote

November 2021 — December 2021

Frontend Software Engineer & Mentee (BloomTech Partnership)

 - Partnered through BloomTech to gain hands-on field experience building web applications under senior mentorship.
 - Participated in 1:1 pair programming, active code reviews, and collaborative engineering sprints.
- BloomTech (FKA Lambda School) | Remote

June 2021 — December 2021

Full-Stack Web Development Graduate

 - Completed 1,000+ hours of full-stack coursework covering JavaScript, React, Node.js, Express, PostgreSQL, data structures, and algorithms.
 - Collaborated in agile scrums, conducting daily standups, code reviews, and Git version control workflows.
